PRIYADHARSHINI ARUMUGAM

Full Stack Developer | Laravel & PHP | REST APIs & ERP Systems | Python / FastAPI (In Progress)

Puducherry, India | +91 95971 86254 | priyadharshiniarumugam52@gmail.com | linkedin.com/in/priyadharshini-arumugam-a43973229

PROFESSIONAL SUMMARY

Full Stack Developer with 6+ years shipping production web apps in Laravel, PHP, and MySQL across ERP, healthcare (EMR), and education platforms. Owns features end to end at startup speed — scoping, building, integrating, and deploying working results in days, not weeks — while changing large, interwoven codebases safely. Equally effective in an Agile team, and now extending into Python, FastAPI, and AI agent development.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, Symfony, JavaScript, Node.js, Express.js, Python, FastAPI (learning)
Frontend & Mobile: HTML5, CSS3, Bootstrap, jQuery, Flutter
Databases & APIs: MySQL, schema design, query optimization, REST API design, third-party integrations, Postman
Auth & Reliability: Firebase Auth, subscription / billing systems, multi-system integration, end-to-end ownership
Tools & Platforms: Git, GitHub, Jira, Confluence, VS Code, Linux deployment, Figma
AI & Practices: AI agent development, Claude AI, GitHub Copilot, Augment Code, Agile / Scrum, cross-functional collaboration

PROFESSIONAL EXPERIENCE

Interconnected Pty Ltd
Remote, Australia • 2025 – Present

PHP / Full Stack Developer

- Owned features end to end at startup speed — scoped, built, and shipped the REST API and Express.js layers powering a full-stack mindfulness meditation web and mobile app.
- Unified web and mobile authentication with Firebase Auth, replacing fragmented sign-in flows with a single reliable system — a key cross-platform integration win.
- Owned subscription-system health: proactively caught and resolved billing/access issues before they reached customers, measurably cutting downtime.
- Rebuilt the legacy Hjarnfokus app from scratch in Flutter with a modernized architecture and improved UX.
- Delivered CMS, portal, and scheduling modules for a multi-part education platform, collaborating across the team on the JKZ website and further Flutter work; converted onboarding flowcharts to Mermaid diagrams for Jira and Confluence.

Crontus Pty Ltd
Remote, Australia • 2024 – 2025

PHP Developer

- Worked across multiple interwoven projects unified into one system, building the deep cross-codebase understanding to change any unit safely without breaking the rest.
- Built and maintained scalable Laravel backends, designed REST APIs, and integrated third-party services.
- Collaborated in Agile sprint planning and iterative, team-based feature delivery.

MRN Technologies Pvt. Ltd.
India • 2022 – Present

Web Developer

- Owned Clinoa (dental EMR) end to end — designed the database schema and built the REST APIs powering both the admin portal and the Flutter app.
- Built Fishball ERP modules that automated sales and inventory workflows, and led UI/UX planning for its redesign in Figma.
- Delivered full-stack web applications from scratch across multiple ERP and portal-based products.

eSales Software Solutions LLP
India • 2018 – 2020

Software Engineer

- Delivered the SchoolSoftERP Marks Module with a mobile API and DB sync, then redesigned it for usability — recognized as Employee of the Month.
- Built the SSS Balvikas e-card feature and led its WordPress site migration; engineered the Rate Shopper API for international shipping-rate comparison across carriers.

REMOTE INTERNSHIP

CodeAlpha
Remote • Ongoing

Python Intern

- Built an AI agent integrated with Jira to automate issue workflows.
- Built a Support Agent AI to automate customer-support responses, plus a Python Hangman game reinforcing core logic and object-oriented design.

EDUCATION

B.Tech, Biomedical Engineering — Rajiv Gandhi College of Engineering & Technology, Puducherry (2014 – 2018)
